

Abdullah Faisal Khalifa

Data Analyst | Business Analyst | Computer Engineering

Saudi Arabia | +966545507140 | abdullah.khalifa1101@gmail.com | linkedin.com/Abdullah Khalifa

PROFESSIONAL SUMMARY

Analytical and detail-oriented Data & Business Analyst with a strong background in Computer Engineering. Skilled in transforming raw, multi-source data into actionable business insights using SQL, Python, and Power BI. Experienced in building automated workflows and data pipelines using n8n, constructing interactive dashboards, and performing advanced Excel data modeling. Proven ability to optimize business processes, analyze operational trends, and deliver clear metrics for strategic decision-making. Adept at bridging technical concepts with business requirements through effective cross-functional collaboration.

EDUCATION

Bachelor of Science in Electrical and Computer Engineering

Jan 2025

Faculty of Engineering at King Abdulaziz University | Jeddah, Saudi Arabia.

Projects

Smart Touch Report (Power BI) – Built an interactive dashboard by gathering data from multiple sources (e.g., SQL, Excel), cleaning and transforming it with Power Query, modeling relationships, applying DAX for analysis, and designing interactive visualizations to generate actionable insights. EXPERIENCE

Data Analytics Intern – JX Tech Studio – Remote

Sep 2026 – Present

- Extract, clean, and analyze complex datasets using **SQL** and **Python** to support project workflow and decision-making.
- Design automated data integration workflows using n8n and build dynamic **Power BI dashboards** utilizing **DAX modeling** to present actionable insights.
- Collaborate with backend and infrastructure team members to translate business requirements into unified analytics deliverables.

Sales & Operations Associate – As3a Platform – Jeddah, Saudi Arabia

Nov 2021 – Dec 2024

- Managed daily operations, ensuring smooth workflow and service delivery.
- Improved customer satisfaction through effective communication and issue resolution.
- Supported sales processes, including client interaction, negotiation, and closing deals.

IT Intern – Boost Saudi – Jeddah, Saudi Arabia

Jun 2024 – Aug 2024

- Performed **network troubleshooting** and system performance optimization.
- Assisted in **system testing** and identifying technical issues.
- Provided basic **IT support and user training** for staff.
- Documented technical processes and system configurations.

SKILLS

- Data Analytics & Tools:** SQL (Queries, Joins & Aggregation), Python (Data Analysis & Scripting), Power BI (Dashboard Creation, Power Query, DAX Modeling), Advanced Excel (PivotTables, Formulas, Automation).
- Automation & Workflow:** n8n Automation, Data Pipeline Integration, Data Cleaning & Trend Analysis.
- Business Analysis & Operations:** Business Process Optimization, Requirements Gathering, KPI Tracking, Workflow Analysis, Strategic Planning.
- Soft Skills:** Problem-Solving & Critical Thinking, Analytical Decision-Making, Cross-Functional Collaboration, Stakeholder Communication.

LICENSES & CERTIFICATES

- Member of the Saudi Council of Engineers (SCE)** | License No. 1111597
- OSHA 30-Hour General Industry Safety and Health** | Authorized by OSHA (2025)
- Data Analysis Using Power BI** | TVTC Accredited (2025)
- Data Analysis Using Excel** | TVTC Accredited (2025)
- Foundation Consulting Skills** | Mustashar Accelerator Program (2025)
- Project Management Professional (PMP)** | TVTC Accredited (2024)
